

**USER'S MANUAL**  
**AUDIO DIFFUSING CENTRAL**  
**“ERIN 1212NC” AND “ERIN 1215NC”**

**CONVENTIONS:**

The visual indicators will be referred between [-] and signal sources {{-}}.

**INDICATORS**

[POWER RED LIGHT] – visual indicator of the connected central.

**SIGNAL SOURCES**

{{INTERNAL}} – common signal source to the sound system.

**1.0 – SPECIFICATIONS**

- \* Power supply stabilized of all installation amplifiers.
- \* Sending audio signal to all installation amplifiers.

**2.0 - TECHNICAL CHARACTERISTICS**

**Model REF. ERIN 1212NC**

\* *POWER SUPPLY*

- Power – 50W.
- Input tension 220/230V.
- Output tension 12V.
- Output current – 4,5 A.
- Protection against surcharge of current.
- Panel in material “ASA”.
- Dim. 250x170mm.

**Note: To guarantee a good installation functioning it's advisable to have only a maximum of 12 amplifiers ERAMPTCL 202S for the same audio central and do not have more than 4 amplifiers ERAMPTCL 202S for each installation branch. (Ex: To install 12 amplifiers, make 3 branches with 4 amplifiers in each branch).**

**Model REF. ERIN 1215NC**

\* *POWER SUPPLY*

- Power – 80W.
- Input tension 220/230V.
- Output tension 16V.
- Output connection – 4,5 A.
- Protection against surcharge of current.
- Panel in material “ASA”.
- Dim. 250x170mm.

**Note: To guarantee a good installation functioning it's advisable to have only a maximum of 8 amplifiers ERAMP1802S for the same audio central and do not have more than 4 amplifiers ERAMP1802S for each installation branch. (Ex: To install 8 amplifiers, make 2 branches with 4 amplifiers in each branch).**

### **3.0 - MANUTENTION**

- Clean frontal panel, in case of damage contact authorized reseller.

### **4.0 – PRECAUTIONS**

- Do not use abrasive cleaners.
- Do not apply liquids directly.
